## MANAGEMENT DISCUSSION AND ANALYSIS

### Business Review

For the financial year ended 31 March 2017, the Group continued to focus on coal resources mining business.

During the financial year, the growth of PRC economy continued to slow down. The demand for coals from the market has been decreasing gradually in recent years as a result of fewer large scale industrial and infrastructure projects and the promotion of the use of clean energy by the PRC government, which also had negative impacts on the coal price, exerting high pressure to the Group's operation. However, the management of the Group has adjusted short-term operation strategy and modified the production plan through understanding the local government's policies. The Group will keep strict control over the costs and expenses to maintain a strong financial position as a whole.

### *Progress of the Optimization and Upgrading Plan<sup>#</sup> and the Updated Optimization and Upgrading Plan<sup>##</sup>*

Pursuant to the instructions from the National Development and Reform Commission of the PRC, the Department of Land and Resources of Xinjiang Uygur Autonomous Region (the "Xinjiang Land Department") had to plan for a management restructuring of seven different coal mines (including the Zexu Mine) in the Xiheishan Mining Area (the "Optimization and Upgrading Plan"), consolidating some smaller mines together so as to increase the size efficiency (for details, please refer to the Company's announcement dated 11 November 2011). After being informed of this Optimization and Upgrading Plan, the Board has requested our management in Xinjiang to conduct frequent meetings and negotiations with the Xinjiang Land Department and other relevant government authorities in order to protect the Company's interest in relation to the exploration permit of the Zexu Mine (the "Exploration Permit").

According to the letter dated 13 June 2012 issued by the Administrative Bureau of Coal Industry of Changji Prefecture (the "Changji Administrative Bureau") informing the updated status of the Optimization and Upgrading Plan, the following proposals (the "Updated Optimization and Upgrading Plan") in relation to the Company's Kaiyuan Mine and Zexu Mine have been submitted to the working group head office for coal industry structural upgrade work of Xinjiang Uygur Autonomous Region for consideration and approval:

1. The Company's Kaiyuan Mine would be restructured and upgraded, and the exploration right in the Zexu Mine granted to the Company would be terminated; and
2. The mining area of the Kaiyuan Mine, where the Company is now conducting mining activities, was proposed to be increased from 1.1596 square kilometers to 4.12 square kilometers, with the estimated coal resources of approximately 131.18 million tonnes.

As at the date hereof, the Company has still not yet received any written notification from the relevant Xinjiang government department in respect of the approval of the Updated Optimization and Upgrading Plan.

As stated in the Company's announcement dated 21 March 2014, the Exploration Permit of the Zexu Mine of the Company originally expired on 20 February 2014. Concerned that the Company's position and rights in the Optimization and Upgrading Plan might be compromised since the Updated Optimization and Upgrading Plan had still not then been approved by the Xinjiang Uygur Autonomous Region Government, the Company through its Xinjiang staff has continued to make informal representations to Chinese officials urging them to exercise administrative discretion to renew the Exploration Permit despite the fact that the Company had earlier obtained a PRC legal opinion advising the Company no further renewal beyond 20 February 2014 could be obtained for Zexu Mine Exploration Permit. Eventually, on 19 March 2014, the Company obtained a renewed permit from Xinjiang Land Department granting the renewal of the Exploration Permit from 25 February 2014 to 25 February 2016. On 19 May 2016 and 16 May 2017, the Company further obtained the renewal of the Exploration Permit with valid period from 5 April 2016 to 5 April 2017 and from 16 May 2017 to 16 May 2019 respectively.

# "Optimization and Upgrading Plan" was previously referred to as "Management Restructuring Plan" in the announcement of the Company dated 11 November 2011 and in the announcements, notices, circulars, interim reports and annual reports of the Company thereafter.

## "Updated Optimization and Upgrading Plan" was previously referred to as "Updated Restructuring Proposals" in the announcement of the Company dated 15 June 2012 and in the announcements, notices, circulars, interim reports and annual reports of the Company thereafter.

## **Prospects**

The Board considers that the coal business is full of challenges and endeavors to achieve our goal of bringing maximum values for shareholders by strengthening management of the Company, controlling the cost of coal mining, modifying the production plan through understanding the local government's policies, seizing new chances, exploring new markets and seeking for investment opportunities.

Although the Company has obtained a renewed Exploration Permit of Zexu Mine from Xinjiang Land Department from 16 May 2017 to 16 May 2019, no development or production activity is now taking place and we have no existing plan to apply for the mining permit of Zexu Mine as the Company is still waiting for the written notification from the relevant Xinjiang government department in respect of the approval of the Updated Optimization and Upgrading Plan. The Company will continue to follow up the updated status of the approval process of the Updated Optimization and Upgrading Plan, in order to protect the interests of the Company in Kaiyuan Mine and Zexu Mine.

Despite the aforesaid progress of the Updated Optimization and Upgrading Plan, the Company is still waiting for the written notification from the relevant Xinjiang government department in respect of the approval of the Updated Optimization and Upgrading Plan. It is therefore uncertain whether the proposals can be approved by the PRC Government eventually. For this reason, the Company would keep all options open and the Company would not at this stage rule out the possibility of resuming the exploration process for Zexu Mine and then applying for a mining permit of the Zexu Mine either by the Company alone or jointly with other companies having coal mines in the vicinity if the circumstances warrant such course of action being taken.

## **Financial Review**
